

HOW TO SILHOUETTE AN IMAGE FOR USE IN INDESIGN

In Photoshop:

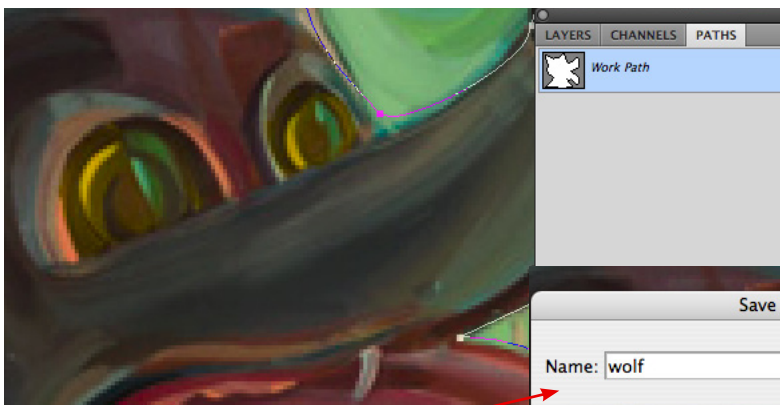

Use the PEN tool to outline the image

1

2

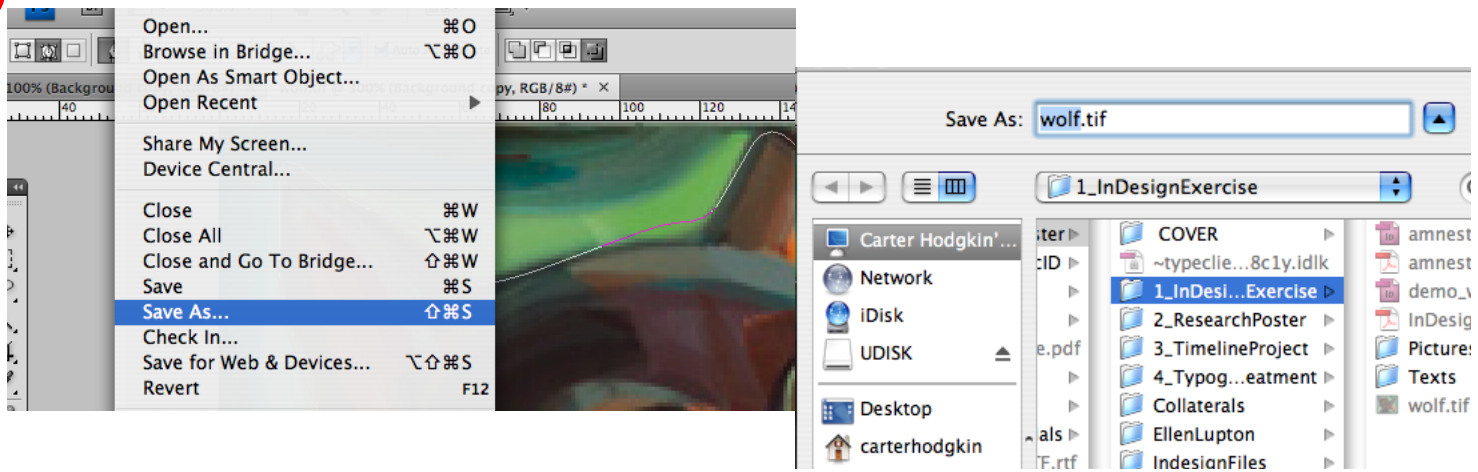

CLOSE the path

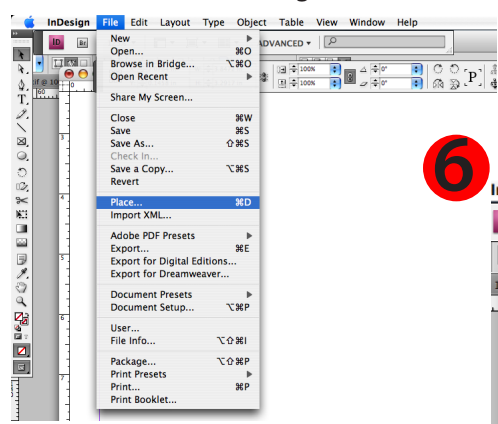

3

SAVE the path

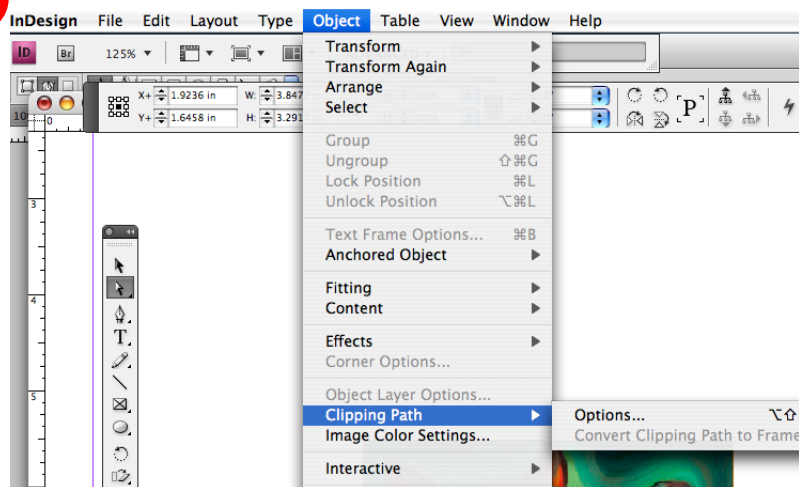

4 - SAVE the file as a TIFF

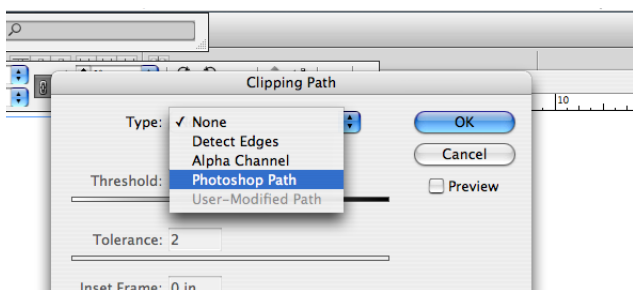

5 PLACE the file in InDesign

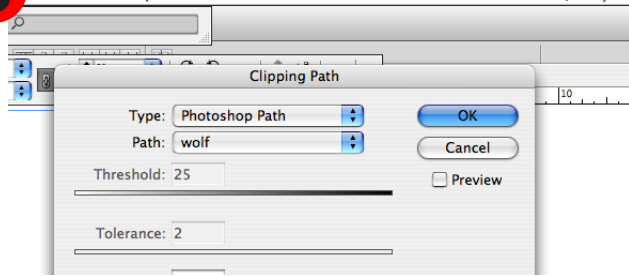

6 Select the image and go to: Object>Clipping Path>Options>

7 Choose: Photoshop Path

8 Choose: Path name

Final Silhouetted image:

Note: This is a rough outline for demo purposes. To have a great silhouette, carefully make the path with the pen tool, zooming in on the edges.
